

Systematic & Evolutionary Botany division seminar 'Biosystematics and evolution of plants'

Schedule, winter semester 2017 / 2018, Mondays, 11.15h, ÜR 2

Date	Speaker	Title	Host
2. Oct	<i>Vorbesprechung</i>		
9. Oct	Huiying Shang , University of Vienna	Does gene flow affect speciation and phylogenomic tree shapes in <i>Populus</i> section <i>Populus</i> ?	CL
16. Oct	Marko Sabovljevic , University of Belgrade	Conservation Biology of Bryophytes: from lab to nature	HS
23. Oct	Yuval Sapir , Tel Aviv University	Incomplete (ecological) speciation in the Royal Irises, a species complex in the course of speciation	CL
30. Oct	<i>No seminar</i> (school autumn break)		
6. Nov	Petra Šarhanová , University of Vienna	Microsatellites: from traditional scoring to NGS	GS
13. Nov	Martha Serrano-Serrano , University of Lausanne	Parallel evolution of pollination types: diversification and gene expression	CL
20. Nov	Dennis Larsson , University of Vienna	The allopolyploid origin of the fern <i>Dryopteris dilatata</i> - Gene loss and misleading results	GS
27. Nov	Lisa Wallerstein , University of Vienna	Pannonian dry grasslands of the Weinviertel: Mosses and plant communities	CL
	Michael Zach , University of Vienna	Local adaption of Nile tilapia (<i>Oreochromis niloticus</i>) from various environments in East Africa	
4. Dec	Don Kirkup , Royal Botanic Gardens Kew, UK	Geometric morphometrics in plant evolutionary biology and systematics	CL
11. Dec	Karin Vetschera , University of Vienna	Conspicuous secrets of the genus <i>Primula</i>	CL
	Fani Arezoo , University of Vienna	TBA (student progress talk)	
8. Jan	Pär Ingvarsson , Uppsala University	Natural variation at FLOWERING LOCUS T2 mediates local adaptation in a key life history trait in European aspen	CL
15. Jan	Laszlo Nagy , University of Szeged	Genomes, genes and complex multicellularity in fungi	JH
22. Jan	Gerwig Winklbauer , University of Vienna	Macrofungal diversity in the Lobau - now and then	IG
29. Jan	Francisco Balao , University of Seville	Phylogenomics and species delimitation in the Mediterranean firs	OP
